I declare that the above information is correct. I am aware that registration with the **RHom** is dependant upon my current and ongoing registration with an existing registering body. I have not been refused registration by an existing registering body, and there are no professional conduct issues, past, present or pending, that may affect my registration status. As a Registered Member of **RHom**, I agree to practice in accordance with the **RHom** Code of Ethics. I understand that ongoing registration with **RHom** requires me to undertake regular CPD in order to maintain and further develop my professional skills.
